Search and Rescue is a unique volunteer opportunity; it is a chance to make a very valuable, hands on difference in the life of a missing person and their loved ones. The nature of the work relies on the volunteer's judgment, dependability, and positive attitude in accomplishing the goals of the search. For this reason, Search and Rescue members are screened carefully. While we have the need for all kinds of volunteers, not all who apply may be suited to this complex type of work.

Please read through this material carefully and complete this application. If you have any questions please contact us at the above listed e-mail address. If your application is approved you will be contacted with the date of our first meeting.
